Schedule 6.03

MATERIAL LITIGATION/INVESTIGATIONS DISCLOSED TO THE SEC
Annual Report on Form 10-K for the year ended December 31, 2007, filed on February 28, 2008

Canadian Export Antitrust Class Actions

Approximately eighty purported class actions on behalf of all purchasers of new motor vehicles in the United States since January 1, 2001, have been filed in various state and federal courts against General Motors Corporation, General Motors of Canada Limited (GM Canada), Ford, Chrysler, Toyota Corporation (Toyota), Honda, Nissan, and BMW and their Canadian affiliates, the National Automobile Dealers Association, and the Canadian Automobile Dealers Association. The federal court actions have been consolidated for coordinated pretrial proceedings under the caption In re New Market Vehicle Canadian Export Antitrust Litigation Cases in the U.S. District Court for the District of Maine, and the more than 30 California cases have been consolidated in the California Superior Court in San Francisco County under the case captions Belch v. Toyota Corporation, et al. and Bell v. General Motors Corporation.

The nearly identical complaints alleged that the defendant manufacturers, aided by the association defendants, conspired among themselves and with their dealers to prevent the sale to U.S. citizens of vehicles produced for the Canadian market and sold by dealers in Canada. The complaints alleged that new vehicle prices in Canada are 10% to 30% lower than those in the United States, and that preventing the sale of these vehicles to U.S. citizens resulted in the payment of higher than competitive prices by U.S. consumers. The complaints, as amended, sought injunctive relief under U.S. antitrust law and treble damages under U.S. and state antitrust laws, but did not specify damages. The complaints further alleged unjust enrichment and violations of state unfair trade practices act. On March 5, 2004, the U.S. District Court for the District of Maine issued a decision holding that the purported indirect purchaser classes failed to state a claim for damages but allowed a separate claim seeking to enjoin future alleged violations to continue. The U.S. District Court for the District of Maine on March 10, 2006 certified a nationwide class of buyers and lessees under Federal Rule 23(b)(2) solely for injunctive relief, and on March 21, 2007 stated that it would certify 20 separate statewide class actions for damages under various state law theories under Federal Rule 23(b)(3), covering the period from January 1, 2001 to April 30, 2003. On October 3, 2007, the U.S. Court of Appeals for the First Circuit heard oral arguments on our consolidated appeal of the both class certification orders.

On September 25, 2007, a claim was filed in Ontario Superior Court of Justice on behalf of a purported class of actual and intended purchasers of vehicles in Canada claiming that a similar alleged conspiracy was now preventing lower-cost U.S. vehicles from being sold to Canadians. No determination has been made that the case may be maintained as a class action, and it is not possible to determine the likelihood of liability or reasonably ascertain the amount of any damages.

Health Care Litigation -- 2007 Agreement

On September 27, 2007, the UAW and eight putative class representatives filed a class action, UAW, et al. v. General Motors Corporation, in the U.S. District Court for the Eastern District of Michigan on behalf of hourly retirees, spouses and dependents, seeking to enjoin us from making unilateral changes to hourly retiree healthcare coverage upon termination of the UAW Health Care Agreement in 2011. Plaintiffs claim that hourly retiree healthcare benefits are vested and cannot be modified, and that our announced intention to make changes violates the federal Labor Relations Management Act of 1947 and ERISA. Although we believe that we may lawfully change retiree healthcare benefits, we have entered into the Settlement Agreement with the UAW which contemplates creation of an independent VEBA trust into which we will transfer significant funding, which thereafter would be solely responsible for establishing and funding a new benefit plan that would provide healthcare benefits for hourly retirees, spouses and dependents.

General Motors Securities Litigation

On September 19, 2005, Folksam Asset Management filed Folksam Asset Management, et al. v. General Motors Corporation, et al., a purported class action complaint in the U.S. District Court for the Southern District of New York naming as defendants GM, GMAC, and our Chairman and Chief Executive Officer G. Richard Wagoner, Jr., former Vice Chairman and Chief Financial Officer John Devine, Treasurer Walter Borst, and former Chief Accounting Officer Peter Bible. Plaintiffs purported to bring the claim on behalf of purchasers of our debt and/or equity securities during the period February 25, 2002 through March 16, 2005. The complaint alleges that all defendants violated Section 10(b) and that the individual defendants also violated Section 20(a) of the Exchange Act. The complaint also alleged violations by all defendants of Section 11 and Section 12(a) and by the individual defendants of Section 15 of the Securities Act of 1933, as amended (Securities Act), in connection with certain registered debt offerings during the class period. In particular, the complaint alleged that our cash flows during the class period were overstated based on the "reclassification" of certain cash items described in our Annual Report on Form 10-K for the year ended December 31, 2004. The

reclassification involved cash flows relating to the financing of GMAC wholesale receivables from dealers that resulted in no net cash receipts and our decision to revise the Consolidated Statements of Cash Flows for the years ended December 31, 2002 and 2003. The complaint also alleged misrepresentations relating to forward-looking statements of our 2005 earnings forecast which was later revised significantly downward. In October 2005, a similar suit, Galliani, et al. v. General Motor Corporation, et al., which asserted claims under the Exchange Act based on substantially the same factual allegations, was filed and subsequently consolidated with the Folksam case. The consolidated suit was recaptioned as In re General Motors Corporation Securities Litigation. Under the terms of the GMAC Transaction, we are indemnifying GMAC in connection with these cases.

On November 18, 2005, plaintiffs in the Folksam case filed an amended complaint, which added several additional investors as plaintiffs, extended the end of the class period to November 9, 2005 and named as additional defendants three current and one former member of GM's audit committee, as well as our independent registered public accountants, Deloitte & Touche LLP. In addition to the claims asserted in the original complaint, the amended complaint added a claim against Mr. Wagoner and Mr. Devine for rescission of their bonuses and incentive compensation during the class period. It also included further allegations regarding our accounting for pension obligations, restatement of income for 2001 and financial results for the first and second quarters of 2005. Neither the original complaint nor the amended complaint specified the amount of damages sought, and we have no means to estimate damages the plaintiffs will seek based upon the limited information available in the complaint. The court's provisional designations of lead plaintiff and lead counsel on January 17, 2006 were made final on February 6, 2006. Plaintiffs subsequently filed a second amended complaint, which added various underwriters as defendants.

Plaintiffs filed a third amended securities complaint in In re General Motors Corporation Securities and Derivative Litigation on August 15, 2006. (As explained below, certain shareholder derivative cases were consolidated with In re General Motors Corporation Securities Litigation for coordinated or consolidated pretrial proceedings and the caption was modified). The amended complaint in the GM securities litigation did not include claims against the underwriters previously named as defendants, alleged a proposed class period of April 13, 2000 through March 20, 2006, did not include the previously asserted claim for the rescission of incentive compensation against Mr. Wagoner and Mr. Devine and contained additional factual allegations regarding our restatements of financial information filed with our reports to the SEC for the years 2000 through 2005. On October 13, 2006, the GM defendants filed a motion to dismiss the amended complaint in the GM securities litigation, which remains pending. On December 14, 2006, plaintiffs filed a motion for leave to file a fourth amended complaint in the event the Court grants the GM defendants' motion to dismiss. The GM defendants have opposed the motion for leave to file a fourth amended complaint.

Shareholder Derivative Suits

On November 10, 2005, Albert Stein filed a purported shareholder derivative action, Stein v. Bowles, et al., in the U.S. District Court for the Eastern District of Michigan, ostensibly on behalf of the Corporation, against the members of our Board of Directors at that time. The complaint alleged that defendants breached their fiduciary duties of due care, loyalty and good faith by, among other things, causing GM to overstate our income (as reflected in our restatement of 2001 earnings and second quarter 2005 earnings) and exposing us to potential damages in SEC investigations and investor lawsuits. The suit sought damages based on defendants' alleged breaches and an order requiring defendants to indemnify us for any future litigation losses. Plaintiffs claimed that the demand on our Board to bring suit itself (ordinarily a prerequisite to suit under Delaware law) was excused because it would be "futile." The complaint did not specify the amount of damages sought, and defendants have no means to estimate damages the plaintiffs will seek based upon the limited information available in the complaint.

On December 15, 2005, Henry Gluckstern filed a purported shareholder derivative action, Gluckstern v. Wagoner, et al., in the U.S. District Court for the Eastern District of Michigan, ostensibly on behalf of the Corporation, against our Board of Directors. This suit was substantially identical to Stein v. Bowles, et al. Also on December 15, 2005, John Orr filed a substantially identical purported shareholder derivative action, Orr v. Wagoner, et al., in the U.S. District Court for the Eastern District of Michigan, ostensibly on behalf of the Corporation, against our Board of Directors.

On December 2, 2005, Sharon Bouth filed a similar purported shareholder derivative action, Bouth v. Barnevik, et al., in the Circuit Court of Wayne County, Michigan, ostensibly on behalf of the Corporation, against the members of our Board of Directors and a GM officer not on the Board. The complaint alleged that defendants breached their fiduciary duties of due care, loyalty and good faith by, among other things, causing us to overstate our earnings and cash flow and improperly account for certain transactions and exposing us to potential damages in SEC investigations and investor lawsuits. The suit sought damages based on defendants' alleged breaches and an order requiring defendants to indemnify us for any future litigation losses. Plaintiffs claimed that demand on our Board was excused because it would be "futile." The complaint did not specify the amount of damages sought, and defendants have no means to estimate damages the plaintiffs will seek based upon the limited information available in the complaint.

On December 16, 2005, Robin Salisbury filed an action in the Circuit Court of Wayne County, Michigan, Salisbury v. Barnevik, et al., substantially identical to the Bouth case described above. The Salisbury and Bouth cases have been consolidated and plaintiffs have stated they intend to file an amended consolidated complaint. The directors and the non-director officer named in these cases have not yet filed their responses to the Bouth and Salisbury complaints. On July 21, 2006, the Court stayed the proceedings in Bouth and Salisbury. The Court subsequently continued the stay until mid-April 2008. Plaintiffs filed amended complaints in In re General Motors Corporation Securities and Derivative Litigation on August 15, 2006. The amended complaint in the shareholder derivative litigation alleged that our Board of Directors breached its fiduciary obligations by failing to oversee our operations properly and prevent alleged improprieties in connection with our accounting with regard to cash flows, pension-related liabilities and supplier credits. The defendants filed a motion to dismiss the amended complaint. On November 9, 2006, the Court granted the plaintiffs leave to file a second consolidated and amended derivative complaint, which adds allegations concerning recent changes to our bylaws and the resignation of a director from our Board of Directors. The defendants have filed a motion to dismiss plaintiffs' second consolidated and amended derivative complaint.

Consolidation of Securities and Shareholder Derivative Actions in the Eastern District of Michigan

On December 13, 2005, defendants in In re General Motors Corporation Securities Litigation (previously Folksam Asset Management v. General Motors Corporation, et al. and Galliani v. General Motors Corporation, et al.) and Stein v. Bowles, et al. filed a Motion with the Judicial Panel on Multidistrict Litigation to transfer and consolidate these cases for pretrial proceedings in the U.S. District Court for the Eastern District of Michigan.

On January 5, 2006, defendants submitted to the Judicial Panel on Multidistrict Litigation an Amended Motion seeking to add to their original Motion the Rosen, Gluckstern and Orr cases for consolidated pretrial proceedings in the U.S. District Court for the Eastern District of Michigan. On April 17, 2006, the Judicial Panel on Multidistrict Litigation entered an order transferring In re General Motors Corporation Securities Litigation to the U.S. District Court for the Eastern District of Michigan for coordinated or consolidated pretrial proceedings with Stein v. Bowles, et al.; Rosen, et al. v. General Motors Corp., et al.; Gluckstern v. Wagoner, et al. and Orr v. Wagoner, et al. (While the motion was pending, plaintiffs voluntarily dismissed Rosen.) In October 2007, the U.S. District Court for the Eastern District of Michigan appointed a special master for the purpose of facilitating settlement negotiations in the consolidated case, now captioned In re General Motors Corporation Securities and Derivative Litigation.

GMAC Bondholder Class Actions

On November 29, 2005, Stanley Zielezienski filed a purported class action, Zielezienski, et al. v. General Motors Corporation, et al. The action was filed in the Circuit Court for Palm Beach County, Florida, against GM, GMAC, our Chairman and Chief Executive Officer G. Richard Wagoner, Jr., GMAC's Chairman Eric A. Feldstein and certain GM and GMAC officers, namely, William F. Muir, Linda K. Zukauckas, Richard J.S. Clout, John E. Gibson, W. Allen Reed, Walter G. Borst, John M. Devine and Gary L. Cowger. The action also named certain underwriters of GMAC debt securities as defendants. The complaint alleged that all defendants violated Section 11 of the Securities Act, that we violated Section 15 and that all defendants except us violated Section 12(a)(2) of the Securities Act. In particular, the complaint alleged material misrepresentations in certain GMAC financial statements incorporated by reference with GMAC's Registration Statement on Form S-3 and Prospectus filed in 2003. More specifically, the complaint alleged material misrepresentations in connection with the offering for sale of GMAC SmartNotes in certain GMAC financial statements contained in GMAC's Forms 10-Q for the quarterly periods ended March 31, 2004 and June 30, 2004 and in the Form 8-K which disclosed financial results for the quarterly period ended September 30, 2004, which were materially false and misleading as evidenced by GMAC's 2005 restatement of these quarterly results. In December 2005, plaintiff filed an amended complaint making substantially the same allegations as were in the previous filing with respect to additional debt securities issued by GMAC during the period from April 23, 2004 to March 14, 2005 and adding approximately 60 additional underwriters as defendants. The complaint did not specify the amount of damages sought, and defendants have no means to estimate damages the plaintiffs will seek based upon the limited information available in the complaint. On January 6, 2006, the defendants named in the original complaint removed this case to the U.S. District Court for the Southern District of Florida, and on April 3, 2006, that court transferred the case to the U.S. District Court for the Eastern District of Michigan.

On December 28, 2005, J&R Marketing, SEP, filed a purported class action, J&R Marketing, et al. v. General Motors Corporation, et al. The action was filed in the Circuit Court for Wayne County, Michigan, against GM, GMAC, Eric Feldstein, William F. Muir, Linda K. Zukauckas, Richard J.S. Clout, John E. Gibson, W. Allen Reed, Walter G. Borst, John M. Devine, Gary L. Cowger, G. Richard Wagoner, Jr. and several underwriters of GMAC debt securities. Similar to the original complaint filed in the Zielezienski case described above, the complaint alleged claims under Sections 11, 12(a), and 15 of the Securities Act based on

alleged material misrepresentations or omissions in the registration statements for GMAC SmartNotes purchased between September 30, 2003 and March 16, 2005. The complaint alleged inadequate disclosure of our financial condition and performance as well as issues arising from GMAC's 2005 restatement of quarterly results for the three quarters ended September 30, 2005. The complaint did not specify the amount of damages sought, and defendants have no means to estimate damages the plaintiffs will seek based upon the limited information available in the complaint. On January 13, 2006, defendants removed this case to the U.S. District Court for the Eastern District of Michigan.

On February 17, 2006, Alex Mager filed a purported class action, Mager v. General Motors Corporation, et al. The action was filed in the U.S. District Court for the Eastern District of Michigan and was substantively identical to the J&R Marketing case described above. On February 24, 2006, J&R Marketing filed a motion to consolidate the Mager case with its case (discussed above) and for appointment as lead plaintiff and the appointment of lead counsel. On March 8, 2006, the court entered an order consolidating the two cases and subsequently consolidated those cases with the Zielezienski case described above. Lead plaintiffs' counsel has been appointed, and on July 28, 2006, plaintiffs filed a Consolidated Amended Complaint, differing mainly from the initial complaints by asserting claims for GMAC debt securities purchased during a different time period, of July 28, 2003 through November 9, 2005, and adding additional underwriter defendants. On August 28, 2006, the underwriter defendants were dismissed without prejudice. On September 25, 2006, the GM and GMAC defendants filed a motion to dismiss the amended complaint, and on February 27, 2007, the District Court issued an opinion granting defendants' motion to dismiss, and dismissing plaintiffs' complaint. Plaintiffs have appealed this order, and oral argument on plaintiffs' appeal was held on February 7, 2008. Under the terms of the GMAC Transaction, we are indemnifying GMAC in connection with these cases.

The securities and shareholder derivative cases described above are in preliminary phases. No determination has been made that the securities cases can be maintained as class actions or that the shareholder derivative actions can proceed without making a demand in accordance with Delaware law that our board bring the actions. As a result, the scope of the actions and whether they will be permitted to proceed is uncertain.

ERISA Class Actions

In May 2005, the U.S. District Court for the Eastern District of Michigan consolidated three related purported class actions brought under ERISA against us and other named defendants who are alleged to be fiduciaries of the stock purchase programs and personal savings plans for our salaried and hourly employees, under the case caption In re General Motors ERISA Litigation. In June 2007, plaintiffs filed a consolidated class action complaint against us, the Investment Funds Committee of our Board of Directors, its individual members, our Chairman and Chief Executive Officer, members of our Employee Benefits Committee during the putative class period, General Motors Investment Management Co. (GMIMCo) and State Street Bank (State Street). The complaint alleged that the GM defendants breached their fiduciary duties to plan participants by, among other things, investing their assets, or offering them the option of investing, in GM stock on the ground that it was not a prudent investment. Plaintiffs purport to bring these claims on behalf of all persons who were participants in or beneficiaries of the plans from March 18, 1999 to the present, and seek to recover losses allegedly suffered by the plans. The complaint did not specify the amount of damages sought, and we have no means at this time to estimate damages that the plaintiffs will seek. On July 17, 2006, plaintiffs amended their complaint principally to add allegations about our restatement of a previously issued income statement and the reclassification of certain cash flows. The amended complaint did not name any additional defendants or assert any new claims. In August 2006, the GM defendants filed a motion to dismiss the amended complaint, which was granted in part and denied in part in August 2007. In February 2007, plaintiffs filed a motion for class certification, which is pending. In October 2007, the parties reached a tentative settlement, which received preliminary court approval on January 30, 2008. The district court has set a fairness hearing on the tentative settlement for June 5, 2008. The tentative settlement provides, among other key terms, that we will pay \$37.5 million in cash, which includes attorney fees and costs for the plaintiffs. In addition, we will agree to maintain various existing structural changes to ERISA plans for our salaried and hourly employees for at least four years.

GMIMCo is one of numerous defendants in several purported class action lawsuits filed in March and April 2005 in the U.S. District Court for the Eastern District of Michigan, alleging violations of ERISA with respect to the Delphi company stock plans for salaried and hourly employees. The cases have been consolidated under the case caption In re Delphi ERISA Litigation in the Eastern District of Michigan for coordinated pretrial proceedings with other Delphi stockholder lawsuits in which GMIMCo is not named as a defendant. The complaints essentially allege that GMIMCo, a named fiduciary of the Delphi plans, breached its fiduciary duties under ERISA to plan participants by allowing them to invest in the Delphi Common Stock Fund when it was imprudent to do so, by failing to monitor State Street, the entity appointed by GMIMCo to serve as investment manager for the Delphi Common Stock Fund, and by knowingly participating in, enabling or failing to remedy breaches of fiduciary duty by other defendants. No determination has been

made that a class action can be maintained against GMIMCo, and there have been no decisions on the merits of the claims. Delphi has reached a settlement of these cases that, if implemented, would provide for dismissal of all claims against GMIMCo related to this litigation without payment by GMIMCo. That settlement has been approved by both the District Judge in the Eastern District of Michigan and the Bankruptcy Judge in the Southern District of New York presiding over Delphi's bankruptcy proceeding. However, implementation of the settlement remains conditioned upon i) the resolution of a pending appeal of the District Court's approval and ii) the implementation of Delphi's plan of reorganization approved by the Bankruptcy Court. Accordingly, the disposition of the case remains uncertain, and it is not possible to determine whether liability is probable or the amount of damages, if any.

On March 8, 2007, a purported class action lawsuit was filed in the U.S. District Court for the Southern District of New York captioned Young, et al. v. General Motors Investment Management Corporation, et al. The case, brought by four plaintiffs who are alleged to be participants in the General Motors Savings-Stock Purchase Program for Salaried Employees and the General Motors Personal Savings Plan for Hourly-Rate Employees, purports to bring claims on behalf of all participants in these two plans as well as participants in the General Motors Income Security Plan for Hourly-Rate Employees and the Saturn Individual Savings Plan for Represented Members against GMIMCo and State Street. The complaint alleges that GMIMCo and State Street breached their fiduciary duties to plan participants by allowing participants to invest in five different funds that each primarily held the equity of a single company: the EDS Fund, the DIRECTV Fund, the News Corp. Fund, the Raytheon Fund and the Delphi Fund, all of which plaintiffs allege were imprudent investments because of their inherent risk and poor performance relative to more prudent investment alternatives. The complaint also alleges that GMIMCo breached its fiduciary duties to plan participants by allowing participants to invest in mutual funds offered by FMR Corp. under the Fidelity brand name. Plaintiffs allege that by investing in these funds, participants paid excessive fees and costs that they would not have incurred had they invested in more prudent investment alternatives. The complaint seeks a declaration that defendants have breached their fiduciary duties, an order requiring defendants to compensate the plans for their losses resulting from their breaches of fiduciary duties, the removal of defendants as fiduciaries, an injunction against further breaches of fiduciary duties, other unspecified equitable and monetary relief and attorneys' fees and costs.

On April 12, 2007, a purported class action lawsuit was filed in the U.S. District Court for the Southern District of New York captioned Mary M. Brewer, et al. v. General Motors Investment Management Corporation, et al. The case was brought by a plaintiff who alleges that she is a participant in the Delphi Savings-Stock Purchase Program for Salaried Employees and purports to bring claims on behalf of all participants in that plan as well as participants in the Delphi Personal Savings Plan for Hourly-Rate

Employees; the ASEC Manufacturing Savings Plan and the Delphi Mechatronic Systems Savings-Stock Purchase Program against GMIMCo and State Street. The complaint alleges that GMIMCo and State Street breached their fiduciary duties to plan participants by allowing participants to invest in five different funds that each primarily held the equity of a single company: the EDS Fund, the DIRECTV Fund, the News Corp. Fund, the Raytheon Fund and the GM Common Stock Fund, all of which plaintiffs allege were imprudent investments because of their inherent risk and poor performance relative to more prudent investment alternatives. The complaint also alleges that GMIMCo breached its fiduciary duties to plan participants by allowing participants to invest in mutual funds offered by FMR Corp. under the Fidelity brand name. Plaintiffs allege that by investing in these funds, participants paid excessive fees and costs that they would not have incurred had they invested in more prudent investment alternatives. The complaint seeks a declaration that defendants have breached their fiduciary duties, an order requiring defendants to compensate the plans for their losses resulting from their breaches of fiduciary duties, the removal of defendants as fiduciaries, an injunction against further breaches of fiduciary duties, other unspecified equitable and monetary relief and attorneys' fees and costs.

Motions to dismiss both Young and Brewer are pending, and there has been no other activity on these cases. No determination has been made that either case may be maintained as a class action. The scope of both actions is uncertain, and it is not possible to determine the likelihood of liability or reasonably ascertain the amount of any damages.

Asbestos Litigation

Like most automobile manufacturers, we have been subject in recent years to asbestos-related claims. We have used some products which incorporated small amounts of encapsulated asbestos. These products, generally brake linings, are known as asbestos-containing friction products. There is a significant body of scientific data demonstrating that these asbestos-containing friction products are not unsafe and do not create an increased risk of asbestos-related disease. We believe that the use of asbestos in these products was appropriate. A number of the claims are filed against us by automotive mechanics and their relatives seeking recovery based on their alleged exposure to the small amount of asbestos used in brake components. These claims generally identify numerous other potential sources for the claimant's alleged exposure to asbestos that do not involve us or asbestos-containing friction products, and many of these other potential sources would place users at much greater risk. Most of these claimants do not have an asbestos-related illness and may not develop one. This is consistent with the experience reported by other automotive manufacturers and other end users of asbestos.

Two other types of claims related to alleged asbestos exposure that are asserted against us -- locomotive and premises -- represent a significantly lower exposure to liability than the automotive friction product claims. Like other locomotive manufacturers, we used a limited amount of asbestos in locomotive brakes and in the insulation used in some locomotives. (We sold our locomotive manufacturing business in 2005). These uses have been the basis of lawsuits filed against us by railroad workers seeking relief based on their alleged exposure to asbestos. These claims generally identify numerous other potential sources for the claimant's alleged exposure to asbestos that do not involve us or locomotives. Many of these claimants do not have an asbestos-related illness and may never develop one. Moreover, the West Virginia and Ohio supreme courts have ruled that federal law preempts asbestos tort claims asserted on behalf of railroad workers. Such preemption means that federal law eliminates the possibility that railroad workers could maintain state law claims against us. In addition, a relatively small number of claims are brought by contractors who are seeking recovery based on alleged exposure to asbestos-containing products while working on premises owned by us. These claims generally identify numerous other potential sources for the claimant's alleged exposure to asbestos that do not involve us.

While we have resolved many of our asbestos claims and continue to do so for strategic litigation reasons, such as avoiding defense costs and possible exposure to excessive verdicts, management believes that only a small portion of these claimants have or will develop an asbestos-related impairment.

The amount expended in defense of asbestos claims in any year depends on the number of claims filed, the amount of pretrial proceedings, and the number of trials and settlements during the period. Our expenditures related to asbestos claims, including both defense costs and payments to claimants, have declined over the past several years.

Patent and Trade Secrets Litigation

In January 1994, plaintiffs commenced John Evans and Evans Cooling Systems, Inc. v. General Motors Corporation in Connecticut state court by filing separate suits for patent infringement and trade secret misappropriation. In the patent case, summary judgment in our favor was affirmed on appeal. In the trade secret case, the 2003 ruling of the presiding judge in our favor was reversed on appeal by the Connecticut Supreme Court on March 15, 2006 and remanded for jury trial. The plaintiffs expanded their claims for the new trial to include a subsequent generation of engines, used in a wide variety of our vehicles and sought relief in excess of \$12 billion. On September 13, 2007, the trial court granted partial summary judgment in our favor, dismissing plaintiff's attempt to expand their claims to the subsequent generation of engines. Plaintiffs are expected to appeal this ruling, which substantially restricts the scope of damages available under their current theory, following the trial.

Coolant System Class Action Litigation

We have been named as the defendant in 22 putative class actions in various federal and state courts in the United States alleging defects in the engine cooling systems in our vehicles; 14 cases are still pending in U.S. courts including six cases that have been consolidated, either finally or conditionally, for pre-trial proceedings in a multi-district proceeding in the U.S. District Court for the Southern District of Illinois. State courts in California and Michigan have denied motions to certify cases for class treatment. In an opinion dated February 16, 2007, certification of a multi-state class was denied in the federal multi-district proceeding on the grounds that individual issues predominate over common questions. However, in Gutzler v. General Motors Corporation, the Circuit Court of Jackson County, Missouri in January 2006 certified an "issues" class in January 2006 comprised of "all consumers who purchased or leased a GM vehicle in Missouri that was factory-equipped with "Dex Cool" coolant, which was included as original equipment in vehicles we manufactured since 1995. The Court also certified two sub-classes comprised of 1) class members who purchased or leased a vehicle with a 4.3-liter engine, and 2) class members who purchased or leased a vehicle with a 3.1, 3.4, or 3.8-liter engine. The Gutzler court's order provided for addressing specific issues on a class basis, including the extent of our warranty on coolant and whether our coolant is incompatible with other vehicle components. In Sanute v. General Motors Corporation, the state court in California on September 30, 2007 certified a class of claims related to certain vehicles with 3.1 and 3.4 liter engines to consider claims that the intake manifold gaskets were defective. In Amico v. General Motors Corporation, the state Court in Maricopa County, Arizona on September 17, 2007 certified a class of all vehicles (regardless of model year) with 3.1, 3.4, 3.8, 4.3, 5.7 and 7.4 liter engines containing intake manifold gaskets with a nylon carrier and silicon sealing bead.

Kenneth Stewart v. General Motors of Canada Limited and General Motors Corporation, a complaint filed in the Superior Court of Ontario on April 24, 2006, alleged a class action covering Canadian residents, except residents of British Columbia and Quebec, who purchased 1995 to 2003 GM vehicles with 3.1, 3.4, 3.8 and 4.3 liter engines. Plaintiff alleged that defects in the engine cooling systems allow coolant to leak into the engine and cause engine damage. The complaint alleged violation of the Business Practices and Competition Acts and sought alleged benefits received as a result of failure to warn and negligence, compensatory damages, punitive damages, fees and costs. Similar complaints (some involving 2004 vehicles as well) have been filed in 17 putative class actions against GM Canada and us, in ten provinces. Class certification has not been approved in any of these cases, and all have been stayed

on the agreement of counsel pending the outcome of the class certification hearing in Stewart, which was scheduled for December 2007 and subsequently adjourned. No determination has been made that the case may be maintained as a class action, and it is not possible to determine the likelihood of liability or reasonably ascertain the amount of any damages.

In October 2007, the parties reached a tentative settlement that would resolve certain claims in the putative class actions related to alleged defects in the engine cooling systems in our vehicles. The settlement as negotiated would apply to claims related to vehicles sold in the U.S. with a 3.1, 3.4 or 3.8-liter engine or to the use of Dex Cool engine coolant in sport utility vehicles and pickup trucks with a 4.3-liter engine from 1996 through 2000, subject to the negotiation and execution of definitive binding agreements. If and when definitive settlement agreements are executed, they must be submitted for approval to the appropriate court or courts. The tentative settlement does not include claims asserted in several different alleged class actions related to alleged gasket failures in certain other engines, including 4.3, 5.0 and 5.7-liter engines (without model year restrictions), or claims relating to alleged coolant related failures in vehicles other than those covered by the tentative settlement.

GM/OnStar Analog Equipment Litigation

We or our wholly owned subsidiary OnStar Corporation (OnStar) or both of us are parties to more than 20 putative class actions filed in various states, including Michigan, Ohio, New Jersey, Pennsylvania and California. All of these cases have been consolidated for pretrial purposes in a multi-district proceeding under the caption In re OnStar Contract Litigation in the U.S. District Court for the Eastern District of Michigan. The litigation arises out of the discontinuation by OnStar of services to vehicles equipped with analog hardware. OnStar was unable to provide services to such vehicles because the cellular carriers which provide communication service to OnStar terminated analog service beginning in February 2008. In the various cases, the plaintiffs are seeking certification of nationwide or statewide classes of owners of vehicles currently equipped with analog equipment, alleging various breaches of contract, misrepresentation and unfair trade practices. This proceeding is in the early stages of development, class certification motions have been fully briefed and the parties have not completed any formal discovery. It is not possible at this time to determine the likelihood of our liability of GM or OnStar or both of us or of class certification, or to reasonably ascertain the amount of any damages.

Greenhouse Gas Lawsuit

In California ex rel. Lockyer v. General Motors Corporation, et al., the California Attorney General brought suit against a group of major vehicle manufacturers including us for damages allegedly suffered by the state as a result of greenhouse gas emissions from the manufacturers' vehicles, principally based on a common law nuisance theory. On September 18, 2007, the U.S. District Court for the Northern District of California granted the defendants' motion to dismiss the complaint on the grounds that the claim under the federal common law of nuisance raised non-justiciable political questions beyond the Court's jurisdiction. The Court also dismissed without prejudice the nuisance claim under California state law. Plaintiff filed an appeal with the U.S. Court of Appeals for the Ninth Circuit on October 16, 2007, and the Court has set a schedule for submission of briefs.

Carbon Dioxide Emission Standard Litigation

In a number of cases, the Alliance of Automobile Manufacturers, the Association of International Automobile Manufacturers, Chrysler, various automobile dealers and GM have brought suit for declaratory and injunctive relief from state legislation imposing stringent controls on new motor vehicle CO2 emissions. These cases argue that such state regulation of CO2 emissions is preempted by two federal statutes, the Energy Policy and Conservation Act and the Clean Air Act. The cases were brought against the CARB on December 7, 2004, in the U.S. District Court for the Eastern District of California (Fresno Division); against the Vermont Agency of Natural Resources and the Vermont Department of Environmental Conservation on November 18, 2005, in the U.S. District Court for the District of Vermont; and against the Rhode Island Department of Environmental Management on February 13, 2006, in the U.S. District Court for the District of Rhode Island.

On September 12, 2007, the U.S. District Court for the District of Vermont issued an order rejecting plaintiffs' argument and dismissing the complaint. The industry plaintiffs, including us, have appealed to the U.S. Court of Appeals for the Second Circuit. On December 12, 2007, the U.S. District Court for the Eastern District of California issued an order granting summary judgment in favor of the defendant State of California and interveners on industry's claims related to federal preemption. The court did not lift the order enjoining California from enforcing the AB 1493 Rules in the absence of an EPA waiver. The industry's response to the ruling is under consideration. A related challenge in the California Superior Court in Fresno is pending. On December 21, 2007, the U.S. District Court for the District of Rhode Island denied the state's motion to dismiss the industry challenge and announced steps for the case to proceed to trial. Also on December 27, 2007, several New Mexico auto dealers filed a federal legal challenge to adoption of the standards in that state.

U.S. Environmental Protection Agency Region III Administrative Complaint

On September 27, 2007, EPA Region III brought a nine-count Administrative Complaint against our manufacturing facility in Wilmington, Delaware seeking undisclosed penalties. The Complaint is substantially similar to the previously disclosed 2003 EPA Region V matter now on appeal before the EPA Environmental Appeal Board. Both cases center around whether purge solvent used in cleaning paint applicators is a solid waste, and whether its continued use in keeping pipes from clogging is part of the solvent's "original intended purpose." We intend to file an Answer and to seek a stay in enforcement until all appeals have been exhausted. EPA Region III may seek penalties in excess of \$100,000.

Financial Assurance Enforcement

The EPA has notified us that they intend to bring an administrative enforcement action for alleged historic failures to comply with the Resource Conservation Recovery Act's annual financial assurance requirements. We anticipate that the EPA will seek penalties exceeding \$100,000.

Investigations

We are cooperating with federal governmental agencies in connection with a number of investigations.

We have received subpoenas and information requests from the SEC in connection with some of its investigations related to various matters including our financial reporting concerning pension and OPEB, certain transactions between us and Delphi, supplier price reductions or credits, any obligation we may have to fund pension and OPEB costs in connection with Delphi's Chapter 11 proceedings, retatements of our previously disclosed financial statements in connection with our accounting for certain foreign exchange contracts and commodities contracts, and certain transactions in precious metal raw materials used in our automotive manufacturing operations. The SEC is also investigating our accounting for various derivative transactions under SFAS No. 133, "Accounting for Derivative Instruments and Hedging Activities." We have produced documents and provided testimony in response to the subpoenas and are continuing to cooperate in connection with all these investigations. A negative outcome of one or more of these investigations could require us to restate prior financial results and could result in fines, penalties or other remedies being imposed on us, which under certain circumstances could have a material adverse effect on our business.

Canadian Export Antitrust Class Actions

In the previously reported antitrust class action consolidated in the U.S. District Court for the District of Maine, In re New Market Vehicle Canadian Export Antitrust Litigation Cases, the U.S. Court of Appeals for the First Circuit reversed the certification of the injunctive class and ordered dismissal of the injunctive claim on March 28, 2008. The U.S. Court of Appeals for the First Circuit also vacated the certification of the damages class and remanded to the U.S. District Court for the District of Maine for determination of several issues concerning federal jurisdiction and, if such jurisdiction still exists, for reconsideration of that class certification on a more complete record. On April 11, 2008, plaintiffs filed a motion with the U.S. Court of Appeals for the First Circuit for rehearing en banc of its decisions regarding the injunctive class.

Health Care Litigation -- 2007 Agreement

In the previously reported class lawsuit brought in the U.S. District Court for the Eastern District of Michigan by the UAW and eight putative class representatives, UAW, et al. v. General Motors Corporation, we completed settlement negotiations and entered into the Settlement Agreement with the UAW and the putative classes on February 21, 2008. The Court certified the class and granted preliminary approval of the Settlement Agreement on March 4, 2008. Notice of the settlement has been mailed to 520,000 class members, and the final hearing to review the fairness of the Settlement Agreement is scheduled for June 3, 2008.

Shareholder Derivative Suits

In the previously reported case, Salisbury v. Barnevik, et al., brought in the Circuit Court of Wayne County, Michigan, the Court has continued the stay in the proceedings until July 2008.

GMAC Bondholder Class Actions

With respect to the previously reported litigation consolidated under the caption Zielezienski, et al. v. General Motors Corporation, et al., on March 6, 2008, the U.S. Court of Appeals for the Sixth Circuit affirmed the dismissal of this case by the U.S. District Court for the Eastern District of Michigan. Plaintiffs have filed a motion for a rehearing.

ERISA Class Actions

In connection with the previously reported cases of Young, et al. v. General Motors Investment Management Corporation, et al. and Mary M. Brewer, et al. v. General Motors Investment Management Corporation, et al., on March 24, 2008 the U.S. District Court for the Southern District of New York granted GM's motions to dismiss both of these cases on statute of limitations grounds. Plaintiffs have appealed the dismissal in both cases.

Coolant System Class Action Litigation

With respect to this previously reported subject of litigation, in October 2007 the parties reached a tentative settlement that would resolve certain claims in the putative class actions related to alleged defects in the engine cooling systems in our vehicles. This settlement has been documented in formal written agreements, which have been preliminarily approved by the state courts in California (covering claims in 49 states) and Missouri. If finally approved, the settlement as negotiated will resolve claims related to vehicles sold in the U.S. with a 3.1, 3.4 or 3.8-liter engine or to the use of DexCool engine coolant in sport utility vehicles and pickup trucks with a 4.3-liter engine from 1996 through 2000. Hearings to consider final approval of the settlement have been scheduled for August 29, 2008 in California and September 5, 2008 in Missouri. The settlement does not include claims asserted in several different alleged class actions related to alleged gasket failures in certain other engines, including 4.3, 5.0 and 5.7-liter engines (without model year restrictions), or claims relating to alleged coolant related failures in vehicles other than those listed above. Such claims are to be dismissed without prejudice.

Greenhouse Gas Lawsuit

In the case of California ex rel. Lockyer v. General Motors Corporation, et al., which has been previously reported, the State of California filed its appeal brief in January 2008, and the defendants filed their responsive brief in March 2008. Several groups filed amicus briefs in support of the defendants, including the State of Michigan, the U.S. Chamber of Commerce and the National Association of Manufacturers.

The parties are now briefing for the District Court the defendants' various motions for summary judgment and motions in limine, as well as plaintiffs' renewed motion for class certification.

Health Care Litigation -- 2007 Agreement

In the previously reported class lawsuit brought in the U.S. District Court for the Eastern District of Michigan by the UAW and eight putative class representatives, UAW, et al. v. General Motors Corporation, we completed settlement negotiations and entered into the Settlement Agreement with the UAW and the putative classes on February 21, 2008. The Court certified the class and granted preliminary approval of the Settlement Agreement on March 4, 2008. Notice of the settlement was mailed to 520,000 class members, and the final hearing to review the fairness of the Settlement Agreement was held on June 3, 2008. On July 31, 2008, the Court approved the Settlement Agreement. All appeals, if any, are expected to be exhausted no later than January 1, 2010.

GM Securities and Shareholder Derivative Suits

In the previously reported case, In re General Motors Corporation Securities and Derivative Litigation, the parties reached an agreement in principle to settle the GM Securities litigation on July 21, 2008. The settlement is subject to the negotiation of a formal agreement, which will be filed with the court in late August or early September 2008. The agreement in principle calls for us to pay \$277 million. We will be required to pay one-half of the money into an escrow account within 30 days of preliminary approval of the settlement by the court, and the other half into an escrow account in January 2009. The tentative settlement is subject to court approval.

With regard to the shareholder derivative suits pending in the United States District Court for the Eastern District of Michigan, the parties reached an agreement in principle to settle the suits on August 6, 2008. The settlement is subject to the negotiation of a

formal agreement, which will be filed with the court. The agreement in principle requires our management to recommend to the Board of Directors and its committees that we implement and maintain certain corporate governance changes for a period of four years. We will also pay plaintiffs' attorneys' fees and costs as approved by the court. We have agreed not to oppose an application for attorneys' fees and costs by the derivative plaintiffs in an amount not to exceed \$7.465 million. The tentative settlement is subject to court approval. In the previously reported case, Salisbury v. Barnevik, et al., brought in the Circuit Court of Wayne County, Michigan, the Court has continued the stay in the proceedings until August 2008. As a condition of the tentative settlement in the shareholder derivative suits pending in the United States District Court for the Eastern District of Michigan, the shareholder derivative cases pending in Wayne County Circuit Court will be dismissed with prejudice.

GMAC Bondholder Class Actions

With respect to the previously reported litigation consolidated under the caption Zielezienski, et al. v. General Motors Corporation, et al., on March 6, 2008, the U.S. Court of Appeals for the Sixth Circuit affirmed the dismissal of this case by the U.S. District Court for the Eastern District of Michigan. Plaintiffs filed a motion for rehearing. On June 26, 2008, the U.S. Court of Appeals for the Sixth Circuit entered an order granting plaintiffs' motion for rehearing, but reaffirming the dismissal of plaintiffs' complaint. Plaintiffs have filed a petition for rehearing en banc.

ERISA Class Actions

In connection with the previously reported case In re General Motors ERISA Litigation, the United States District Court for the Eastern District of Michigan gave final approval to the proposed settlement on June 5, 2008. In July 2008, one of the objectors to plaintiffs' attorneys' fees award filed an appeal with the United States Court of Appeals for the Sixth Circuit.

In connection with the previously reported cases of Young, et al. v. General Motors Investment Management Corporation, et al. and Mary M. Brewer, et al. v. General Motors Investment Management Corporation, et al., on March 24, 2008 the U.S. District Court for the Southern District of New York granted our motions to dismiss both of these cases on statute of limitations grounds. Plaintiffs have appealed the dismissal in both cases.

Patent and Trade Secrets Litigation

In connection with the previously reported case John Evans and Evans Cooling Systems, Inc. v. General Motors Corporation, the case is currently set for trial in March 2009. Plaintiffs have indicated their intent to seek damages in excess of \$600 million at trial. As previously reported, plaintiffs are expected to appeal a ruling by the trial court which substantially restricted the scope of damages available to them (plaintiffs previously sought relief in excess of \$12 billion) following the trial.

Coolant System Class Action Litigation

With respect to this previously reported subject of litigation, in October 2007 the parties reached a tentative settlement that would resolve certain claims in the putative class actions related to alleged defects in the engine cooling systems in our vehicles. The settlement does not include claims asserted in several different alleged class actions related to alleged gasket failures in certain other engines, including 4.3, 5.0 and 5.7-liter engines (without model year restrictions), or claims relating to alleged coolant related failures in vehicles other than those listed above. Such claims are to be dismissed without prejudice.

Pick-up Truck Parking Brake Litigation

The Corporation has been named in four class action lawsuits alleging that certain 1998 through 2004 C/K pick-up trucks have defective parking brakes. The cases are Bryant v. General Motors Corporation, filed on March 11, 2005 in the Circuit Court for Miller County, Arkansas; Hunter v. General Motors Corporation, filed on January 19, 2005 in Superior Court in Los Angeles, California; Chartrand v. General Motors Corporation, et al. filed on October 26, 2005 in Supreme Court, British Columbia, Canada; and Goodridge v. General Motors Corporation, et al. filed on November 18, 2005 in the Superior Court of Justice, Ontario, Canada. The complaints allege that parking brake spring clips wear prematurely and cause failure of the parking brake system, and seek compensatory damages for the cost of correcting the alleged defect, interest costs and attorney's fees. The two Canadian cases also seek punitive damages and "general damages" of \$500 million. On August 15, 2006, the Miller County Circuit Court in the Bryant

case certified a nationwide class consisting of original and subsequent owners of 1999 through 2002 GM series 1500 pick-up trucks and sport utility vehicles equipped with automatic transmissions and registered in the United States. On June 19, 2008, the Supreme Court of Arkansas affirmed the certification decision. We intend to file a petition for certiorari seeking review of the certification decision in the U.S. Supreme Court.

Greenhouse Gas Lawsuit

In the case of California ex rel. Lockyer v. General Motors Corporation, et al., which has been previously reported, the State of California filed its appeal brief in January 2008, and the defendants filed their responsive brief in March 2008. EPA Environmental Appeal Board Remands Hazardous Waste Region V Case, Impacting Regions II and III Enforcements

On June 22, 2008 the EPA Environmental Appeal Board reversed and remanded a 2006 Administrative Law Judge ruling that had found us liable for violating hazardous waste rules in Region V for the handling and storage of used solvents. As previously reported, EPA Regions II, III and V have brought enforcement actions against several GM assembly plants seeking penalties for alleged noncompliance with the Resource Conservation Recovery Act (RCRA) rules for the handling and storage of solvents used to purge colors from paint applicators. In March 2006 an administrative law judge found GM liable for RCRA violations at three plants in Region V and assessed a \$568,116 penalty. We have appealed.

Canadian Export Antitrust Class Actions

In the previously reported antitrust class action consolidated in the U.S. District Court for the District of Maine, In re New Market Vehicle Canadian Export Antitrust Litigation Cases, the U.S. Court of Appeals for the First Circuit reversed the certification of the injunctive class and ordered dismissal of the injunctive claim on March 28, 2008. The U.S. Court of Appeals for the First Circuit also vacated the certification of the damages class and remanded to the U.S. District Court for the District of Maine for

determination of several issues concerning federal jurisdiction and, if such jurisdiction still exists, for reconsideration of that class certification on a more complete record. The parties are now briefing for the District Court the defendants' various motions for summary judgment and motions in limine, as well as plaintiffs' renewed motion for class certification.

Health Care Litigation -- 2007 Agreement

In the previously reported class lawsuit brought in the U.S. District Court for the Eastern District of Michigan by the UAW and eight putative class representatives, UAW, et al. v. General Motors Corporation, we completed settlement negotiations and entered into the Settlement Agreement with the UAW and the putative classes on February 21, 2008. The Court certified the class and granted preliminary approval of the Settlement Agreement on March 4, 2008. Notice of the settlement was mailed to 520,000 class members, and the final hearing to review the fairness of the Settlement Agreement was held on June 3, 2008. On July 31, 2008, the Court approved the Settlement Agreement. On September 2, 2008, the judgment became final as the period to file appeals related to the Court's order expired, with no appeals filed.
GM Securities and Shareholder Derivative Suits

In the previously reported case, In re General Motors Corporation Securities and Derivative Litigation, on September 23, 2008 the United States District Court for the Eastern District of Michigan preliminarily approved the proposed settlement in the GM Securities litigation. The court set a hearing for final approval for December 22, 2008.

With regard to the shareholder derivative suits pending in the United States District Court for the Eastern District of Michigan, on September 23, 2008 the district court preliminarily approved the settlement. The Court set a hearing for final approval for December 22, 2008. The Notice and Stipulation of Settlement are available at www.gm.com.

In the previously reported case, Salisbury v. Barnevik, et al., brought in the Circuit Court of Wayne County, Michigan, the Court has continued the stay in the proceedings until November 2008.

GMAC Bondholder Class Actions

With respect to the previously reported litigation consolidated under the caption J&R Marketing SEP, et al. v. General Motors Corporation, et al., on October 9, 2008, the U.S. Court of Appeals for the Sixth Circuit denied plaintiffs' motion for rehearing and rehearing en banc.

ERISA Class Actions

In connection with the previously reported case In re General Motors ERISA Litigation, the United States District Court for the Eastern District of Michigan gave final approval to the proposed settlement on June 5, 2008. In July 2008, one of the objectors to plaintiffs' attorneys' fees award filed an appeal with the United States Court of Appeals for the Sixth Circuit. On September 18, 2008, the Court of Appeals dismissed the appeal upon appellant-objector's motion.

In connection with the previously reported cases of Young, et al. v. General Motors Investment Management Corporation, et al. and Mary M. Brewer, et al. v. General Motors Investment Management Corporation, et al., on March 24, 2008 the U.S. District Court for the Southern District of New York granted our motions to dismiss both of these cases on statute of limitations grounds. Plaintiffs have appealed the dismissal in both cases.

Patent and Trade Secrets Litigation

In the previously reported case John Evans and Evans Cooling Systems, Inc. v. General Motors Corporation, on October 28, 2008, the parties reached an agreement on a term sheet to settle the case. A definitive agreement is being drafted.

Coolant System Class Action Litigation

As previously reported, in October 2007 the parties reached a tentative settlement that would resolve certain claims in the putative class actions related to alleged defects in the engine cooling systems in our vehicles. The settlement received final approval from the Circuit Court of Jackson County, Missouri on September 5, 2008 and from the Superior Court in Almeida County, California on October 23, 2008. The ruling of the California court remains subject to appeal.

As also previously reported, parallel class action was initiated in Canada alleging that 1995 to 2003 vehicles with 3.1, 3.4, 3.8 and 4.3 liter engines suffered from engine cooling system defects. On August 28, 2008, the parties reached a tentative settlement of the Canadian litigation on essentially the same terms as in the U.S. On October 30, 2008, the Superior Court in Ontario approved that settlement. The approval order remains subject to potential appeal.

Pick-up Truck Parking Brake Litigation

The Corporation has been named in four class action lawsuits alleging that certain 1998 through 2004 C/K pick-up trucks have defective parking brakes. The cases are Bryant v. General Motors Corporation, filed on March 11, 2005 in the Circuit Court for Miller County, Arkansas; Hunter v. General Motors Corporation, filed on January 19, 2005 in Superior Court in Los Angeles, California; Chartrand v. General Motors Corporation, et al. filed on October 26, 2005 in Supreme Court, British Columbia, Canada; and Goodridge v. General Motors Corporation, et al. filed on November 18, 2005 in the Superior Court of Justice, Ontario, Canada. The complaints allege that parking brake spring clips wear prematurely and cause failure of the parking brake system, and seek compensatory damages for the cost of correcting the alleged defect, interest costs and attorney's fees. The two Canadian cases also seek punitive damages and "general damages" of \$500 million. On August 15, 2006, the Miller County Circuit Court in the Bryant case certified a nationwide class consisting of original and subsequent owners of 1999 through 2002 GM series 1500 pick-up trucks and sport utility vehicles equipped with automatic transmissions and registered in the United States. On June 19, 2008, the Supreme Court of Arkansas affirmed the certification decision. We intend to file a petition for certiorari seeking review of the certification decision in the U.S. Supreme Court.

Greenhouse Gas Lawsuit

In the case of California ex rel. Lockyer v. General Motors Corporation, et al., which has been previously reported, the State of California filed its appeal brief in January 2008, and the defendants filed their responsive brief in March 2008. EPA Environmental Appeal Board Remands Hazardous Waste Region V Case, Affecting Regions II and III Enforcements

On June 22, 2008 the Environmental Protection Agency (EPA) Environmental Appeal Board reversed and remanded a 2006 Administrative Law Judge ruling that had found us liable for violating hazardous waste rules in Region V for the handling and storage of used solvents. As previously reported, EPA Regions II, III and V have brought enforcement actions against several of our assembly

plants seeking penalties for alleged noncompliance with the Resource Conservation Recovery Act (RCRA) rules for the handling and storage of solvents used to purge colors from paint applicators. In March 2006 an administrative law judge found us liable for RCRA violations at three plants in Region V and assessed a \$568,116 penalty. We are preparing for a fact hearing on remand.

Schedule 6.26

INTELLECTUAL PROPERTY

This Schedule 6.26 is qualified in its entirety by reference to specific provisions of the Loan Agreement, and is not intended to constitute, and shall not be construed as constituting, representations and warranties of any Loan Party, except to the extent expressly provided in the Loan Agreement. Notwithstanding the foregoing, the inclusion of any particular Intellectual Property in this Schedule 6.26 (including, without limitation, any attachment hereto) shall not be construed as an admission that that particular Intellectual Property is material to the operation of the business of any Loan Party.

Section I:

Schedule 6.26(a):

(i)Trademarks:

See Attachments (i)(A) through (i)(G).

(ii)Patents:

See Attachments (ii)(A) through (ii)(J).

(iii)Copyrights:

See Attachments (iii)(A) through (iii)(C).

(iv)Domain Names:

See Attachment (iv).

Material Intellectual Property that is the subject of any licensing or franchising agreement that prohibits or restricts any Loan Parties' conduct of business as presently conducted:

None.

Except as set forth herein or on Schedule 6.03, no Loan Party has received any notice that it is violating or has violated the trademarks, patents, copyrights, inventions, trade secrets, proprietary information and technology, know-how, formulae, rights of publicity or other intellectual property rights of any third party, which, individually or in the aggregate, could reasonably be expected to have a Material Adverse Effect.
